SUMMARY

Professional developer equipped for role, bringing robust experience in WordPress. Skilled in PHP, HTML, CSS, and JavaScript, with strong focus on team collaboration and achieving results. Adaptable and reliable, excelling in changing environments. Known for delivering high-quality web solutions and enhancing user experiences.

WORK EXPERIENCE

WORDPRESS DEVELOPER , Kiddies Android

Jan 2023 - Present

- Successfully designed and developed a responsive and user-friendly WordPress website for Kiddies Android, an educational platform focused on children's tech literacy. Implemented features such as an interactive blog, e commerce functionality for selling educational tools, and optimized performance for a seamless user experience across devices. This project increased user engagement by 40% within the first three months of launch.

WordPress developer, LLJ Ministry

MARCH 2023- JUNE 2023

- Develop and maintain WordPress sites, focusing on functionality, performance, and security. Collaborate with designers and project managers to implement custom themes and plugins based on client requirements. Improve user experience by incorporating modern UI/UX practices and testing different designs for effectiveness. Optimize website performance by reducing load times, improving SEO, and implementing caching techniques.

WordPress developer, CASHIETNG

Feb 2022 - Jan 2023

- Built and managed WordPress websites for a diverse client base, ensuring scalability and responsiveness. Developed custom plugins to extend functionality, resulting in improved site efficiency and user engagement. Worked closely with the design and content teams to develop SEO-friendly websites that aligned with brand goals. Enhanced website security by implementing advanced authentication systems and regular vulnerability assessments.

WordPress developer, SYNERGYFY

January 2019- December 2022

- Assisted in the development of WordPress websites, working under senior developers to learn best practices. Gained hands-on experience in PHP and JavaScript, contributing to the development of interactive front-end components. Performed website updates and maintenance, ensuring uptime and reliability for client sites. Supported the development team by handling bug fixes, site optimization, and minor customization tasks.

Figma, Help2rent

January 2024- December 2025

- Assisted in the development of WordPress websites, working under senior developers to learn best practices. Gained hands-on experience in PHP and JavaScript, contributing to the development of interactive front-end components. Performed website updates and maintenance, ensuring uptime and reliability for client sites. Supported the development team by handling bug fixes, site optimization, and minor customization tasks.
